State University of New York at Binghamton *August 2006 - August 2010*
9/06 - 8/10: Assistant Professor of Accounting, State University of New York at Binghamton

Administrative Responsibilities and Accomplishments

Interim Dean Parks College of Engineering, Aviation and Technology

- Initiated multiple graduate student recruiting efforts. These efforts include developing a new scholarship strategy, recruiting in the global market, and updating application process to be more engaged with prospective students. In the first semester, these efforts resulted in a 300% increase in Masters of Engineering new student enrollment.
- Oversaw the Aviation Accreditation Board International virtual visit.
- Initiated a faculty portfolio review charged with assessing the current state of the graduate programs in Parks. The committee is expected to bring forward recommendations on how to increase our enrollment and efficiency in our revenue generating degree portfolios.

Interim Dean of the Chaifetz School of Business

- Prepared the faculty for the shift to asynchronous online teaching in the Spring of 2020. Implemented policies to assist faculty and students with the uncertainty of the semester.
- Planned and implemented a hybrid teaching model for Fall 2020 within the school. The model provided flexibility to both students and faculty with regards to the modality of instruction.
- Made significant changes in the marketing of our graduate portfolio beginning in October 2019. These changes yielded a 112% increase in One-Year MBA enrollment and a 212% increase in the Part-Time MBA year over year.
- Led the successful AACSB Continuous Improvement Review process for both the Chaifetz School and separate Accounting accreditation.
- Created Graduate Portfolio Review Committee to assess the strengths, weaknesses, and opportunities within our local graduate market.
- Obtained STEM designation for two separate graduate programs.

Accounting Department Chair

- Created Young Professionals Advisory Board to increase our engagement with recent graduates. This body also assists in student engagement and fundraising.
- Implemented a Spring Internship Program that allows students to seek an internship from January to mid-March and complete condensed courses over the final six weeks of the semester. This led to increased opportunities for our students at local firms.
- Led the department in updating the strategic plan of the accounting department and curriculum redesign across multiple courses to emphasize data analytics.
- Worked with the development office to raise over \$110,000 in scholarships that were awarded at our 2019 scholarship event.
- Coordinated and reviewed the AACSB assessment of learning for the undergraduate accounting program.
- Performed annual faculty evaluations and course scheduling.
